REV. HENRY CLARK COOMBS.

## REV. HENRY CLARK COOMBS.

---

Rev. Henry Clark Coombs, the oldest resident of the town and the oldest Baptist clergyman in the country with but one exception, died Oct. 27th, aged 94 years.

His physical and mental powers were remarkably preserved until near his death. He was a fine type of the old-time Baptist minister who made the most of his opportunities and obeyed the Master's call at once, and with such preparation as he possessed he performed an important service by supplying a much needed want among the smaller country churches. He was a man of sweet spirit, discreet, prudent and a safe counselor. He belonged to a class whose remembrance should be held in great respect. Rugged and upright in character, firm and decided in conviction, direct and abrupt in speech, well versed in the Scriptures, self-sacrificing and faithful in labors, affectionate and devoted to his family and his friends, pure and sincere as a Christian, faithful to the church, sympathetic and helpful to the unfortunate, especially to the weak churches, deeply concerned for the cause of temperance, for the Christian Sabbath, for education, for philanthropy, morality, and all good causes.

He had been an ordained minister for seventy years, a longer period than any other of the Baptist clergymen in the United States. He was born in that part of Middleboro, now Lakeville, Sept. 3, 1810. The house is still standing where he first saw the light.

He was the youngest of fourteen children in the family of Rev. Simeon Coombs. All the children with one exception reached maturity. His parents died when he was about nine years of age and then commenced a struggle for education which was his youthful ambition. By extreme prudence and hard labor he saved enough to enter a school at

New Hampton, N. H., and later at Peirce Academy in Middleboro. While a student he seems to have received the call for his life work. His first pastorate after entering the ministry was at Norton where he gathered a strong society and erected a meeting-house. He was ordained in Norton by Rev. Hervey Fittz in 1834.

He afterwards held pastorates in Mansfield, Mashpee, Rehoboth, Shutesbury, and South Kingston, R. I. In 1849 he settled in Middleboro, and built the house on School street where he has since resided. Since living in this town he has preached in Pocasset, Rowe, Carver, Cummington, North Middleboro and supplied in other churches. The zealous interest which Mr. Coombs maintained for the cause of temperance was only second to his interest for the church. He believed the use of alcoholic liquor as a beverage to be an unmitigated evil and the open saloon the greatest curse of the nation.

# REPORT OF THE SELECTMEN

For the Year Ending Dec. 31, 1904.

The Selectmen have drawn orders upon the Town Treasurer for the amounts hereinafter given under the several appropriations made by the town :

## TOWN OFFICERS.

Appropriation . . . . .	\$3,000 00	
Unexpended . . . . .	21 96	
		<hr/> \$3,021 96

Orders drawn :

E. F. Witham, selectman and assessor, 1903 . . . . .	\$33 58
L. P. Thomas, selectman and assessor, 1903 . . . . .	27 50
A. H. Eaton, town clerk, 1903 . . . . .	83 34
L. S. Bailey, tree warden, 1903 . . . . .	198 00
E. F. Witham, selectman and assessor, 1904 . . . . .	370 00
L. P. Thomas, selectman and assessor, 1904 . . . . .	195 00

The above constitutes the financial report of the different departments over which the Selectmen have control. Of the general work of the board, which may be of interest to the inhabitants or of use as reference the following is presented :

Early in the year we contracted with the Massachusetts Highway Commission to build 10,000 feet of macadam road for the sum of \$6,872. This has been built within the appropriation and has been accepted. The state highway is now complete to the Rochester line, a distance of about nine miles.

No settlement has been made with the Massachusetts Highway Commission for work done in 1903. The work

was accepted by the commission Nov. 28th, 1904, and settlement will probably be made about Feb. 1st, after the statutory limit of 60 days for the filing of liens has passed.

One mile of five-inch macadam road has been built on Cushman and Miller streets, from the house of E. W. Thomas to the Rock depot at a money cost of about \$4,000. Of this amount \$3,300 was contributed by the Trustees under the will of Thomas S. Peirce, \$500 by Charles N. Atwood, and smaller amounts and some stone by other interested parties.

We believe it should be the policy of the town to build town macadam roads wherever the abutters or interested persons will deliver the stone free to the crusher to an amount sufficient to build not less than one-half a mile.

Upon the assurance of the Trustees under the will of Thomas S. Peirce that they would reimburse the town, we solicited bids for the building of Frank street to subgrade and awarded the work to L. B. Pratt for the sum of \$1,045, his bid being the lowest. The work has been completed and accepted and the town reimbursed.

On July 2nd the Selectmen gave to the Southern Massachusetts Telephone Co. a blanket franchise covering all the locations given to the different companies to that date, one provision being that it should place its wires underground, within the limits of the fire district upon request of the Selectmen. Since that date locations have been granted to said telephone company on the following streets, South, Spruce, Pine, Highland, Marion road, Long Point road, Walnut, Vaughan, Wood, Plympton, Fuller, Winter, Cedar, Soule, Oak, North, Nemasket, No. Main and Montello.

The Selectmen have made the following appointments in their order :

E. F. Witham, Burial Agent.

H. H. Robinson, Inspector of Alewives and Shad.

John C. Chace, Supt. of Streets and Sewers.

Edgar D. Wood, Sealer of Weights and Measures.

James H. Russell, Member Board of Registrars.

George E. Hatch, Night Watch.

B. F. Johnson, Keeper of Lockup.

## ELECTION OFFICERS.

*Precinct 1.*

A. W. Leonard	.	.	Warden.
Warren S. Gibbs	.	.	Deputy Warden.
P. W. Keith	.	.	Clerk.
B. J. Allan	.	.	Deputy Clerk.
T. J. Pratt	.	.	Inspector.
M. V. B. Pratt	.	.	Deputy Inspector.
H. A. Pratt	.	.	Deputy Inspector.
Josiah T. Carver	.	.	Officer.

*Precinct 2.*

George F. Bryant	.	.	Warden.
Chester E. Weston	.	.	Deputy Warden.
Joseph E. Beals	.	.	Clerk.
Edwin F. Witham	.	.	Teller and Deputy Clerk.
Wm. M. Haskins	.	.	Inspector.
E. T. P. Jenks	.	.	Deputy Inspector and Teller.
Edgar D. Wood	.	.	Inspector.
Wallace C. Collins	.	.	Deputy Inspector.
Isaac M. Foye	.	.	Officer.

At a joint meeting with the School Committee E. T. P. Jenks was chosen as a member of the School Committee to fill the vacancy caused by the removal from town of Johanna T. Leonard.

In the suit of Seth A. Eaton against the town, for injury to his horse through an alleged defect in the street, judgment was rendered for the plaintiff.

An appeal was taken but there is a prospect that the matter will be settled before it reaches a higher court.

In the matter of the claim of the town for damages to its gas plant by reason of the abolition of the Centre street grade crossing, an award of \$8,071 was made to the town, and \$6,000 has been paid into the town treasury.

The award of \$2,000 made to the town by the County Commissioners to be paid by the city of Taunton for the taking of the surplus waters of Assawampsett lake, has not

been paid owing to the inability of the counsel to execute a receipt that will be mutually satisfactory.

The suits of George and Walter Blair, for the taking of land for drainage purposes, have not come to trial.

The case of Morse vs. the town of Middleboro, in which judgment was rendered for the plaintiff, has gone to the full bench of the Supreme Court on exceptions.

Suit has recently been entered against the town by the Marinette Gas Engine Co. for the collection of their claim of \$5,075, but has not come to trial.

### STATE HIGHWAY REPORT.

In 1904 the selectmen contracted with Massachusetts Highway Commission to construct 10,440 feet of macadam road beginning at Houdlett's corner and extending to Rochester line. We completed the contract in Nov. 1904 at a cost as follows :

5,320 tons stone at 35 cents . . . . .	\$1,862 00
Cost of labor, men and teams . . . . .	4,344 28
Guard rail . . . . .	49 27
5 catch basins . . . . .	100 75
Gravel in pits, 568 yards . . . . .	56 80
Fuel, wood and coal . . . . .	225 90
Oil . . . . .	29 49
Blacksmith bill, repairing, etc. . . . .	50 00
Incidental account . . . . .	50 00

Actual cost of road including building 4 concrete bridges . . . . . \$6,768 49  
 Which would be at the rate of 64 4-5 cents per lineal foot.

Received from State Highway . . . . .	\$6,872 00
Balance in favor of town . . . . .	103 51
Special work on M , W. & B. B. R. R. for State Highway Commission . . . . .	85 00
Received from State Treasurer . . . . .	\$85 00
Work done on G. M. Quirk layout . . . . .	402 71
Received from Pacific Surety Co. on same . . . . .	402 71

### MACADAM ROAD IN TOWN.

We have used about 3,000 tons of stone in the village this year, building on the following streets :

New Centre, whole width from bridge to West.

West, from Centre to Vine.

Vine, from West to junction of old Vine street.

Cambridge, from Centre to point near Maxim's Mill.

School, from Peirce to end of concrete walk.

Near Andrew A. Harding's land.

Also recoated one side of Centre from Union to Pearl and from Oak to High.

Frank street has been built by Peirce trustees ready for gravel.

All three of the railroad bridges have been planked this year.

We have built the southerly end of West street as far as laid out.

Traded  $5\frac{1}{2}$  cords manure to C. J. Fillmore for stone.

#### TOWN TEAMS.

This has been an exceptionally good year in the teaming department as the teams all maintained good health throughout the year and the example set by them has worked to the advantage of the department on teams hired as they have been prompt in all their work, especially in the call for snow ploughs.

#### STREET SPRINKLING.

Appropriation and assessments . . . . .	\$1,278 50
Expenditures . . . . .	1,278 50

#### CUSHMAN AND MILLER STREETS.

In 1904 there was a proposition to the Selectmen to build a mile of road on Cushman and Miller streets by subscription which was accepted by them and the following subscriptions were received and acknowledged:

Peirce estate . . . . .	\$3,300 00
C. N. Atwood . . . . .	500 00
Henry Tinkham . . . . .	10 00
Henry Clark . . . . .	5 00
W. F. Clark . . . . .	10 00
G. H. Simmons . . . . .	10 00
Cash paid Town Treasurer for dust . . . . .	7 50
	<hr/>
	\$3,842 00

Road was built and finished August, 1904,  
using 2,867 tons stone.

Paid for stone . . . . .	\$870 02	
240 loads gravel borrowed . . . . .	14 40	
G. H. Simmons, wood . . . . .	33 00	
O'Hara Bros., coal . . . . .	31 43	
Crew Levick Co., oil . . . . .	22 76	
Eagle Oil Supply Co., packing, waste, etc. . . . .	40 71	
Taylor Iron Steel Co., 1 pr. steel jaws	90 00	
One pr. check plates, 1 pr. toggle plates	21 00	
W. F. Dean, stakes . . . . .	2 10	
Bryant & Soule, coal . . . . .	57 50	
John Taylor, repairing crusher . . . . .	3 35	
J. D. Vaughan, fixing pump . . . . .	2 50	
C. N. Atwood, wood, incidentals . . . . .	21 50	
Stock for guard rail . . . . .	15 71	
Iron pipe . . . . .	37 50	
Labor for men and teams . . . . .	2,749 63	
	<hr/>	\$4,013 11

Actual cost of road \$4,013.11, which would cost the town \$170.61. The whole cost per lineal foot 73 cents, there being 5,580 feet. The difference in cost per foot between this and state road is the amount of grading.

## VALUATION OF HIGHWAY PROPERTY.

Crusher plant has been brought back except bin and put in first-class con- dition, newly babbitted, etc. . . . .	\$2,000 00

## REPORT OF TREE WARDEN

From January 1, 1904, to January 1, 1905.

---

The most of our work spraying was done on maple and fruit trees. We sprayed 160 maple trees for the woolly louse, and about 300 fruit trees for private persons. The work of trimming was more than in years before, and the demand for trimming is more than in the years past.

Happily, the elm leaf beetle is on the wane, as we did not spray any elms this season. The work done on elms outside of trimming, was inoculation. We inoculated thirty-three elms, a few oaks, and other small trees. The result was satisfactory in every way.

To fruit growers, we call your attention to the new discovery, we recommend its use, as it is very simple and effective.

The gypsy and brown tail moths have not as yet made their appearance in town.

Trimming and removing trees have taken most of the past year. March 25, removed a large oak on Centre street, situated about three miles from the village; April 5, removed a dead pine at E. Middleboro; April 26, removed elm in school yard, School street; May 24, removed an oak tree on Cambridge street; October 26, removed a broken maple on Pearl street; July 13, removed three oaks and one maple at Rock.

The gale, September 15, did a great deal of damage to trees in town, and made it necessary to remove several.

The work in transplanting trees was very satisfactory. We planted twenty-four chestnut trees in eighteen school yards. The expense was borne by the school children. It was the best part of our work as it greatly helped in instructing children in forestry and beautifying of the school yards. The work ought to be carried out the coming year.

Again I call your attention to the electric wires passing through the trees. They are injuring the trees as many have

died the past year, and must be attended to the coming year.

In conclusion I wish to thank all who kindly assisted me in my work the past year.

Respectfully submitted,

L. S. BAILEY,

*Tree Warden.*

## REPORT OF BOARD OF HEALTH.

---

I herewith submit my report for the year ending December 31, 1904.

The general work seems to remain about the same from year to year, and will as long as some people forget that old adage "That cleanliness is next to Godliness."

The following is a classified list of complaints received by the Board.

Rubbish . . . . .	18
Overflowing cesspools . . . . .	60
Defective drains . . . . .	9
Unclean premises . . . . .	8
Hog pens . . . . .	5
Offensive privies . . . . .	12

---

### RUBBISH.

The town furnishes a public dump, a night soil cart and an offal wagon. Yet some families will move into a tenement and instead of availing themselves of the use of any of the above means for their use, will start a dump of their own back of the privy, and will dump their ashes and refuse that should go to the carts that come for the same, onto the ashes and also the slops from the chamber until they cannot stand their own nastiness, and then look up the agent of the Board of Health to get the landlord to clean the same up, they not knowing that the same law that fits them fits him. We have been obliged to close several public dumps that have been open for the public.

### CARE OF OUR GUTTERS.

It seems almost like a farce with each returning season to report the same old story. But I deem it a thing of so much

importance to the health of a community that I feel compelled to again say what is right for me from a sense of duty.

#### BAKERIES.

The bakeries have been examined as required by law, and found to be clean and neat and in good condition.

#### MILK.

I have continued the work that was begun two years ago, and find an improved condition both in the quality of the milk and in the care of the same. With new and younger men to handle the milk, new and more modern ideas are easily accepted.

#### TUBERCULOSIS.

We have had more cases reported than last year. I have disinfected fifteen rooms. But I do not think that the public are aware as yet of the importance of this work.

#### CONTAGIOUS DISEASES.

There have been twenty cases of contagious diseases the last year, four of diphtheria, six of typhoid fever and two deaths, ten of scarlet fever.

#### SPITTING.

An order was passed two years ago forbidding spitting upon our sidewalks and public places. The first year it was well obeyed, but the last two, with no one to enforce the same, it has remained of no use. For a board may pass rules and regulations as it sees fit, but if no one interested in the same is clothed with power to enforce them, they will remain inoperative.

#### THE CARE OF OUR SCHOOLS.

The care of schools is still continued with the same good results.

Even mild cases of ordinary diseases among children are frequently benefited by use of formaldehyde, and other towns are learning to do the same kind of work.

## INSPECTION OF DRESSED BEEF.

The work until this year has been very little to care for, but this year with the increase of the business we have licensed three slaughter houses, and have applications for two more. The inspector has examined four hundred and ten hogs this year and condemned seven; thirty beef and condemned one.

There have been no material changes at the farm during the past year. The buildings have been given a much-needed coat of paint, and some necessary repairs have been made in the house. The overseers feel that the general condition of the farm is first-class in every respect, and that the town has an institution which in many ways is a model of its kind.

Although the average age of the inmates of the farm is sixty-eight years, the youngest being thirty-seven and the oldest ninety-five, no deaths have occurred during the past year, a fact which speaks well for the excellent care given them by our efficient superintendent and matron.

The expenses of our outside poor are heavier than last year, owing to two severe cases of sickness which cost the town nearly \$575, and to the extreme weather of last winter which made the calls for aid more frequent and imperative. It is the aim of the Board of Overseers of the Poor to expend their appropriation as economically and judiciously as possible, and they are always open to suggestions as to the conduct of their department.

## REPORT OF TOWN PHYSICIAN.

Middleboro, Mass., Jan. 1, 1905.

C. S. CUMMINGS, No. 40 OAK STREET.

*To the honorable board, the Overseers of the Poor,*

Gentlemen:—I herewith hand you my report as town physician for the year ending Dec. 31, 1904.

At the Almshouse the health of the inmates has been above the average. The improvements toward cleanliness commenced last year have been completed, and at present every room is clean and can easily be kept so. The sanitary conditions are good, and I believe the good health of the inmates is due to the good management and measures taken to prevent sickness.

There has been more sickness outside than usual. Below is a tabulated list of cases treated during the year.

## REPORT OF MUNICIPAL LIGHTING PLANT.

---

*To the honorable board of Gas and Electric Commissioners :*

I herewith submit the eleventh annual report of the plant under municipal ownership, for the year ending December 31, 1904.

The operation of the electric plant has been eminently satisfactory as the following will show.

The total number of customers at the close of the business December 31 were : total 263, against 249 in 1903. They are divided as follows : gas, 45 ; electric 137 ; gas and electric, 81, a gain of 14 customers during the year, all of which were electric as the gas customers remained the same, namely 45.

There was also a corresponding increase in the receipts.

The total sales for the year amounted to \$15,771.18, an increase of \$1,676.36, divided as follows : gas, \$223.43 ; commercial incandescent, \$99.68 ; domestic incandescent, \$146.14 ; commercial arc, \$184.92 ; jobbing, \$1,022.19.

The total sales for the year were : gas, \$3,370.51 ; commercial incandescent, \$5,240.75 ; domestic incandescent, \$2,437.65 ; commercial arc, \$1,534.42 ; jobbing, \$3,187.85. Total as above stated, \$15,771.18.

The 5 per cent. discount allowed for prompt payment was taken advantage of to the amount of \$516.65.

The above bears out the truth of the statement made in the report of 1902, "that the plant is reaching a more economical and profitable stage for the manufacture and sale of electric light," inasmuch as when the books were closed June 30, 1903, the manufacturing account exceeded the sales by \$969.56, whereas for the corresponding period ending June 30, 1904 the sales exceed the manufacturing account by \$1,688.38, which might be and undoubtedly would be

materially increased by the changing of some of the apparatus, for the more modern and efficient.

For example. The plant is now operating open arcs for the street lighting system, which if changed to the enclosed system, while taking practically the same amount of power, would result in the saving of at least 75% of the carbon bill. It will also result in saving in cost of trimming at the same ratio, together making a net saving of \$286.00 per year with the present number installed.

In the present system the lamps will only burn 15 hours, using three carbons, before they must be re-trimmed. The enclosed arc burns from 90 to 100 hours using only  $1\frac{1}{2}$  carbons in the 100 hours with only one trimming. Therefore believing that it is the most economical and for the best interest of the town to change from the open to the inclosed arc system for the street lighting, I would recommend that in addition to the other appropriations asked for that the commissioners ask for \$1,500.00 for the purpose of making the above change.

The gas plant although making a better showing than previous years as regards the sales has not shown the marked degree of improvement hoped for at the beginning of the year.

Owing to the process in use here of manufacturing gas and the inefficient appliances, and the drawback of small mains and the comparatively small area over which they extend it is impracticable to advocate the extensive use of gas, especially for manufacturing, cooking or heating purposes; realizing that in the present condition, regarding size only, that it would be detrimental to the plant and unfair to those already using gas to solicit more customers. With proper facilities for distributing gas the income could be doubled by the use of gas stoves and appliances.

It has been remarked that Middleboro has been fortunate in not having any more break downs. Middleboro has been fortunate, but that good fortune comes mostly from the attention the apparatus has had to keep it in that state where it would not break down. This station during the eleven years it has been under my supervision has had three shut downs. One for five minutes eight years ago, one for three

minutes five years ago, and the hour some few weeks ago. The fact that the engine and dynamo are doing what they are to-day is evidence enough of the care they receive.

The record of the shut downs in this plant will compare favorably with any working under similar conditions.

In a city or under private ownership such conditions do not exist as the owners realize they are under obligation or at least morally obliged to provide for such contingencies as arise, and that the consumer shall not be inconvenienced by any accident which may befall the apparatus at the station.

Consumers when entering into a contract with the town, after going to the expense of wiring and equipping stores and houses, assume that the town has made ample provision in case of accident or emergency to provide them current for lighting.

At present this plant depends solely on one generator, and the time will soon come, when if the present increase in load continues the machine will reach that stage in which it is more liable to break down; as it is at the present time loaded to about 90% of its rated capacity, I would recommend that the commissioners also ask for an appropriation of \$3,500.00 for procuring a duplicate electric unit.

Next to the item of wages, the fuel account is the one that concerns the central station managers.

The question most frequently asked in the past month is "what is the comparative cost of operating a gas engine and steam engine of equal power."

This is a problem requiring solution for each individual case.

Considered solely as a machine for converting the total energy of fuel into mechanical work the gas engine is by far the most efficient. When the service is intermittent or the power is required at times during the day or night, as the case may be, the gas engine plant has a decided advantage, because it is not, like the steam plant, subject to what are called standby losses, that is losses from radiation when standing idle under steam pressure, and from coal used in raising steam and in banking fires, which in case of the boiler at this plant requires about 600 lbs; together with the uncertainty of perhaps in two or three hours of having to

open up the fires and start steam engine for only a short time, not always being able to determine what the load will be or whether the water power will be sufficient.

From the first, the thought of gas and not gasoline engines has been paramount in the mind of the present manager and also his predecessor. Although, in our case, it can be proven there is some saving by using a gasoline engine in place of the steam engine, it can be more easily and much more conclusively proven that there is a far greater saving over gasoline or steam engines by the use of gas engines. All of the appliances are at hand to convert the engines at present installed at the plant from gasoline to producer gas engines.

A brief outline of the making and the advantages of producer gas may be of interest.

Producer gas is made by distilling bituminous or anthracite coal in a closed furnace, using part of its own heat of combustion to effect the chemical reaction, and derives its name from that given to the gas generator.

A thick layer of fuel rests upon properly constructed grates, and air and steam are forced from below the grates up through the bed of the fuel. The first combustion is carbonic acid, with air alone, or carbonic acid and hydrogen if steam is also used. This carbonic acid gas, meeting the layers of carbon above is decomposed by the carbon into carbonic oxide, which with the hydrogen passes up through the bed of fuel and outward through the proper pipes through purifiers to the holder and from there to the engine under slight pressure.

Producer gas affords the best means and cheapest method of obtaining the maximum heat value out of coal, by converting it, in gas producers, into gas and using it for gas engines. Power can be produced much cheaper and safer than by any steam plant.

After the coal has been converted into fixed gases nothing remains but the ashes. From 82% to 87% of the heat value of coal is available at the engine, which is equivalent and guaranteed to produce one brake horse power with one and one quarter lbs. of coal, while with the present steam engine installed 7 lbs. per horse power is a good record.

With the best triple expanding steam engine with condensing and all modern appliances two lbs. of coal per horse power is required.

Producer gas plants have been in satisfactory use fifteen years, so they are not an experiment, and cost no more to install than steam plant of corresponding size.

During the last four years, previous to July 1, 1904, the coal bill amounted to \$6,053.20, and as a conservative estimate that the saving in gas engines over steam would be 80% it would make a net saving of \$4,842.56. In view of the above facts that to install a gas producer plant at the station would be a step in the right direction to place the plant on a more economical and paying basis, would recommend that the commissioners ask for an appropriation of \$4,000.00 for installing a complete automatic producer gas plant.

The practice of placing the town's wires on the telephone poles as fast as practicable is still pursued, as they have conceded that right and privilege, thereby relieving the town of the maintenance of poles for the carrying of town wires.

## AUDITOR'S REPORT.

---

I have examined the accounts and books of the different departments of the town and on the whole they are satisfactory.

In the Highway department I find quite a large number of payments with no voucher for the same, this is also true in less degree in the Incidental Account. This is explained by the Selectmen as being due to the fact that the bills are not returned after being paid.

I wish to call attention to the financial summary with which I close my report, especially that part which refers to the Poor department.

There is an apparent discrepancy between the accounts of the Town Treasurer and Overseers of the Poor, accountable to the income from the farm of which the Town Treasurer has no record. It is and has been, the custom of the Overseers of the Poor, to draw on the Treasurer in sums of \$1,000.00 which is by them paid out. This is only a continuation of the system which has been in vogue for years. Our town is the only one having this system.

I recommend at this time that all income from said department be paid over to the Town Treasurer and that all payments of that department be made by order upon said Treasurer.

By examining the accounts of the Light Board I judge that more attention should be paid to the financial end of the business. According to the regulations of the Middleboro Gas and Electric Plant the service will be discontinued to all customers whose bills are not paid in sixty days.

January 1st there were twenty-three accounts overdue that length of time or longer. The regulations should be either lived up to or rescinded.

The books of the Treasurer are well kept, disbursements being made upon orders, which are on file.

The cash on hand in the bank agrees with the balance as shown by the books.

For the convenience of readers I present a summary of receipts and expenditures showing the cost of each department.

## REPORT OF THE TOWN CLERK.

---

The following is a summary of the proceedings of the meetings holden during the year 1904.

The annual meeting was held March 7, 1904, called to order by the clerk. Warren B. Stetson was chosen Moderator and duly sworn.

*It was voted:*—That the Treasurer with the consent of the Selectmen be authorized to hire \$45,000 in anticipation of taxes.

*Voted:*—To change the name of Wareham street between the house of John B. Carver and its junction with Rocky Gutter street to Rocky Gutter street.

*Voted:*—That the polls be kept open until 5.30 p. m.

*Voted:*—That the yards of persons chosen Field Drivers be Town Pounds, so long as they remain in office provided they shall be chosen Pound Keepers.

The following named persons were chosen to serve as Measurers of wood, timber and bark for one year.

John B. LeBaron.	Gustavus G. Andrews.
John L. Benson.	Joshua K. Bishop.
Harrison W. Atwood.	Nathaniel A. Shurtleff.
Albert F. Mitchell.	N. Horace Ryder.
James A. Thomas.	Nathan B. Maxim.
Isaac E. Perkins.	Benjamin C. Shaw.
George H. Vaughan.	Henry W. Sears.
Ephraim H. Gammons.	Adam P. McKeen.
Chester E. Weston.	George E. Gove.
Charles Lee.	Edwin F. Witham.

The following were chosen as Field Drivers.

James A. Thomas.	Lyman P. Thomas.
Howard M. Bishop.	William L. Faxon.
James A. Burgess.	Lucius M. Fuller.
Charles H. Soule.	

The above named Field Drivers were chosen Pound Keepers.

*Voted:*—That a committee of seven men (other than town officers having to do with the expenditure or ordering of the town's money) be appointed at this and subsequent annual spring meetings, who shall hold such office for the period of one year, and who shall, after giving or holding duly advertised hearings to the heads of departments and to the public, held not more than thirty days; nor less than seven days before the annual spring town meeting to prepare for the next annual spring town meeting a printed ballot, whereon shall be printed a brief and comprehensive statement of the amounts of money appropriated for and received by each department the preceding year, the amount expended by each department during the year, and the amount recommended for appropriation for the current year, with a column or space after such amount recommended, wherein the vote Yes or No may be written, said ballot to be given to the ballot clerks and distributed with and in the same manner as the official ballot. George W. Stetson, Granville E. Tillson, William R. Mitchell, Chester E. Weston, Augustus Pratt, Amos H. Eaton and Charles N. Atwood were chosen as the committee.

D. D. Sullivan reported a full set of By-Laws.

*Voted:*—That the report be recommitted to the same committee with directions to have a thousand copies printed and distributed, and the subject brought up before a future meeting properly called to act upon the adoption of the By-Laws.

The committee on Old Home Week reported that in their opinion it was inadvisable to recommend any celebration of Old Home Week this year by the town.

The committee on a new High School building reported by reading a communication they had received from the Trustees of the Peirce Fund, and recommended that its provisions be accepted by the town. The communication was as follows :

MIDDLEBORO, MASS., March 5, 1904.

*Nathan Washburn, Esq., Chairman Committee to consider  
High School accommodations.*

Dear Sir:—We the undersigned, Trustees under the Will of Thomas S. Peirce, desire to make the following statements:

We believe that the present High School building is not adapted for the purposes of a High School; that the building is overcrowded at the present time and will continue to be so in the future; that we believe the time has come to have a new High School building erected.

Therefore, we as Trustees, have the following proposition to make to the voters of the town of Middleboro.

That the town purchase of the aforesaid Trustees a lot of land on Peirce street, adjoining the north-west side of the lot occupied by the new Public Library building, with a frontage on Peirce street of one hundred and sixty-five feet and a depth of one hundred and fifty feet, at a cost of \$1,500.

That the town choose a committee of five, namely, Chester E. Weston, George W. Stetson, George R. Sampson, Walter Sampson and one member of the School Committee of the town, that member to be elected by the Board of School Committee.

That the town authorize that committee to erect and equip a modern High School building, with modern appliances, to be used by the High School, the building and the equipment not to exceed in cost \$50,000.

That the Town Treasurer be authorized to hire a sum not to exceed \$50,000, at such times as said committee shall require it, said sum to be hired in the denomination of \$5,000 each, bearing interest at the rate of four per cent. per annum, and payable \$5,000 each and every year from the date of their issue until said principal sum is paid.

If the town will pass the aforementioned votes, we, as Trustees, will agree to pay the interest on the whole principal sum every year as it shall become due and also the note of \$5,000 maturing each year and will loan the town

the said principal sum as it shall be needed at the rate of four per cent.

In order that the citizens of Middleboro may understand the intention of the foregoing votes, we would explain as follows :

That the Trustees under the will of Thomas S. Peirce are willing to erect a modern building to be used for High School purposes only, to be erected under the supervision of the said Trustees, the Principal of the High School and one member of the School Committee : that they desire to erect and equip a building at an expense of not less than \$40,000 nor more than \$50,000 : that they have no right to anticipate their income or borrow money in anticipation : that they believe that their present income warrants the setting apart of said income of a sum each year not to exceed \$7,000 for the payment of the notes as they become due and also the interest on the whole sum if the town accepts the foregoing proposition.

Respectfully submitted,

CHESTER E. WESTON,  
GEORGE W. STETSON,  
GEORGE R. SAMPSON,

*Trustees under the will of Thomas S. Peirce.*

Mr. Washburn also reported that he would prepare articles covering the foregoing proposition of the Peirce Trustees and present them to the Selectmen to be incorporated in a warrant to be issued by them at a town meeting to be called as soon as practicable.

The report of the committee was accepted.

*Voted*:—That George W. Stetson, Granville E. Tillson, William R. Mitchell, Chester E. Weston, Augustus Pratt, Amos H. Eaton and Charles N. Atwood be constituted a committee, who shall, after giving or holding hearings to the different heads of departments and the public, submit to the adjourned meeting a list of the amounts of money they would recommend to be appropriated for the different departments

for the current year, and that each member be paid from the treasury the sum of two dollars for each hearing.

The right to take alewives was sold by public auction to Randall Hathaway for \$102.50.

*Voted*:—To instruct the School Committee, the Electric Light Commissioners, Town House Committee, Trustees of the Public Library and Superintendent of Streets to advertise for sealed bids for fuel, hay and grain used in the different departments.

The following List of Jurors was accepted by the town.

At the adjourned annual meeting March 30, 1904, Curtis H. Dunham, John H. Ryder, Elmer B. Cole, were chosen Measurers of Wood, Lumber and Bark.

The report of the Committee on Appropriations was read by the Chairman, George W. Stetson, was accepted and adopted.

The report follows:

*Recommendations presented by the Committee on Appropriations at the adjourned Town Meeting, March 30, 1904.*

For support of schools, current expenses and superintendent's salary . . . . .	\$25,800 00
Repairs, alterations and improvement of school property . . . . .	1,000 00
Salary of school committee . . . . .	150 00
Support of poor . . . . .	7,000 00
Soldiers' relief . . . . .	4,000 00

Water supply . . . . .	1,500 00
Town debt, note due November 1, 1904 . . . . .	5,000 00
Town debt, note due December 12, 1904 . . . . .	250 00
Town debt, payment on account of note ex- tended from 1902 . . . . .	1,000 00
Gas and electric lighting plant :	
Commissioners' salaries . . . . .	\$150 00
Suburban lighting . . . . .	450 00
Bonds due . . . . .	2,000 00
Interest . . . . .	3,148 00
Construction . . . . .	952 00
Maintenance . . . . .	900 00
	<hr/>
Interest . . . . .	3,000 00
Board of Health . . . . .	1,000 00
Highway department, including general repairs, clearing away snow, and salary of superintendent	8,500 00
Police . . . . .	300 00
Night watch . . . . .	725 00
Sprinkling streets . . . . .	600 00
Grade crossing tax . . . . .	2,471 87
Protection of shade trees and tree warden's salary	300 00
Town house committee (including insurance pre- miums) . . . . .	600 00
	<hr/>
Total . . . . .	\$76,996 87
Less corporation and bank tax (estimated)	5,900 00
	<hr/>
To raise by tax . . . . .	\$71,096 87

Estimating from the data available we think that the total appropriation which we have recommended will result in a tax rate of probably not more than \$19.50 per \$1,000 as compared with a rate of \$20.70 per \$1,000 last year. The voters may safely calculate that each addition of \$1,000 to the appropriations will make an increase of at least 25 cents per \$1,000 in the tax rate.

Respectfully submitted,

### REPORT OF REGISTRARS.

#### REPORT OF THE CLERK.

Forty-one meetings of the Board of Registrars have been holden during the year. Two of them were in the hall of the Pratt Free school, the others in the office of the Town Clerk. Some of them were only two hours in length, several were twelve hours.

At those meetings a new voting list was prepared in the summer from the lists furnished by the Assessors. Before each election and each caucus the lists have been corrected and revised. During the year one hundred and three (103) persons have registered.

AMOS H. EATON,

MIDDLEBORO PUBLIC LIBRARY

THIRTY-FIRST ANNUAL REPORT  
 OF THE  
 Trustees of the Public Library  
 For the Year 1904.

---

REPORT OF THE LIBRARIAN.

*To the Trustees:*

Gentlemen—I herewith present the thirty-first annual report of the Public Library. From January 1st to March 9th were drawn 3,224 volumes; the books were then called in and the Library closed seven weeks preparatory to moving into the new building, which was opened April 25th, very informally, for the inspection of the townspeople. The following day, April 26th, it was opened for business. From that date to the close of the year, 44,410 books have been drawn for home use; this is a gain over last year of 15,000 volumes, a very gratifying evidence of the popularity of the new Library. A large proportion of this gain is due to the fact that each card holder is entitled to draw two books, provided only one is fiction; this is almost general in the young people's room, and many adults take advantage of the privilege. The largest daily circulation was 584, April 26th, and the smallest 54, on September 29th, 25,344 volumes of fiction were drawn, and 19,066 of non-fiction.

*Growth in Volumes.*

Additions of the year number 1,103,—1,003 by purchase, and 100 by gift, including volumes of bound magazines. 32 volumes have been discarded as worn too much to rebind; all but eight are replaced; these are old books and

out of print; it is doubtful if new copies can be secured at present. The 600 new books in the young people's room were counted in last year's report, but were not put in circulation until the opening of the new building. The present total of volumes belonging to the Library counting the public documents, is about 12,779.

### *Binding.*

Three hundred and twenty-five books have been rebound; at this writing the magazines of 1903 and 1904 are at the binder's, and 175 books, 120 being from the young people's room.

### *Registration.*

In opening the new Library all the old cards were destroyed, and a new registration was begun, using red ink to distinguish from the old. The age limit for children was changed by vote of the Trustees, from 14 years to 10. There have been issued to date 1,539 borrower's cards, most of which are in use a part or all of the time.

### *Reserving Books.*

This is done by payment of a penny for the postal card which is sent whenever the demand is made for a certain book. Of the so-called popular novels, duplicates are purchased when thought advisable, but in many instances, after a few weeks one copy is all sufficient, and it does not seem wise, in a small library, to fill the shelves with too many useless books, many of which are dead in a year.

### *Publications.*

Lists of new books appear in the Middleboro *Gazette* and are posted on the bulletin boards in the delivery room. They are also added to the card catalogue at once. Most of our cards are made by the Library of Congress at Washington; they are very clear and helpful and come at less cost than they can be typewritten here. They are arranged in the drawers alphabetically like the words in a dictionary. The attendants are pleased, at any time, to assist persons who are looking for any particular book or subject, or those who do not know *how* to look.

*Reading Room.*

In this department may be found the Boston and Brockton daily papers, the New York Sun, New York Mail, Old Colony Memorial, Barnstable Patriot, New Bedford Standard, and Middleboro Gazette. There are about 75 periodicals and magazines on the tables. A summary of the most noteworthy contents is printed on a small bulletin, and hung in the room, thus enabling anyone who is looking for a particular subject to easily find in what month and number it appeared. We have, on file, nine religious weekly papers, the gift of societies and individuals representing different church denominations. The room is opened on Sundays from 2 until 7 p. m., and has the Sunday papers.

*Young People's Room.*

From April 26th until January 1, 1905, 16,705 books have been taken from this room, 6,466 being histories and travels. The children have free access to the shelves, and a great many books are read in the room of which no account is taken. On the bulletin board is always something to interest or instruct. There are about 600 pictures relating to nature study which are on exhibition from time to time as the seasons change. The Holiday school reading lists are made for this department. We have them for Lincoln and Washington's birthdays, Memorial day, Thanksgiving and Christmas; they contain selection from books in the Library which are appropriate to the day and occasion. 32 teachers have especial cards, and are permitted to draw an almost unlimited number of books for school work. On the reading tables of this room are Birds and Nature, The American Boy, St. Nicholas, The Youth's Companion, Success and Little Folks. If the library is right at all, surely no more fertile or profitable field for usefulness can be found than this work among and for the children.

*Gifts.*

Catholic dictionary from Rev. D. C. Riordan.

Equestrian statue of Major-Gen. Joseph Hooker, from Hon. David G. Pratt. [State document.]

Inside history of the Carnegie Steel Co., from James Howard Bridge.

Maine Register and Year book, from M. F. King.

Bound volumes of Atlantic, Century, Harper, and Scribner magazines from Dr. H. S. Swan.

Eight volumes of Vital records from the Secretary of the State.

Where is my dog, from James A. Burgess.

The state of Missouri, from Rev. S. M. Cathcart.

U. S. Life Saving Service reports, from E. T. Jenks.

Through the courtesy of the Librarians at Brockton and Fairhaven, we receive their library bulletin, containing lists of new books and other interesting information.

I would take this opportunity to thank the Board of Trustees for their unfailing kindness and co-operation.

Respectfully submitted,

ADELAIDE K. THATCHER,

*Librarian.*

Mrs. Adelaide K. Thatcher still continues her efficient service as Librarian, assisted by Misses Alice M. Alden, Florence A. Robinson, Marion K. Tillson, Mary M. Eddy and Mrs. Myra K. Tillson, as their services are required.

The Library is open every week day afternoon from 2 to 9 o'clock, and the reading room on Sunday afternoons from 2 to 7 o'clock.

The new library building has been completed during the past year. As noted in the report of the librarian it was opened to the public April 26th, 1904. As is well known, it was built from the proceeds of a bequest from the late Thomas S. Peirce. It is located on a lot at the corner of North Main and Peirce streets formerly belonging to the Peirce estate, and cost, with the equipments, \$50,000. The lot was given by the Trustees of the Peirce estate.

The building in its exterior dimensions is about 76 by 46 feet, with an addition in the rear of about 31 by 41 feet for the stack room. The foundations and steps are of granite; the basement walls are of grey pressed brick and terra cotta of a color to match. The walls of the building are of a light

shade of pink pressed brick, with terra cotta trimmings. In the large, deep, main basement is located the heating apparatus with coal bin and other accessories. At one end of the basement room, on a raised floor, are janitor and toilet rooms and a large room for a work room and for packing and unpacking. The main floor contains a librarian's room, general delivery room, reading and reference room and young people's room, which are so arranged as to be as nearly as possible under the eye of the librarian. On a bronze tablet over the entrance from the delivery room to the stack room is this inscription.

<p>THE GIFT OF THOMAS SPROAT PEIRCE ERECTED 1903.</p>
---

The second floor contains a room for an art gallery, a trustees' room, in which are to be placed memorials of the Peirce family, and other rooms to be used as the future wants of the Library shall require.

The stack room, the entrance to which is immediately in the rear of the Librarian's desk, is at present arranged with two tiers of stacks, with shelving for about 50,000 books. The shelving is of the all-steel type with a steel and glass floor between the tiers. The main floor is on a level with the delivery room and on this floor are kept the books most often called for. The second floor is seven and one-half feet below, and the fittings are so arranged that a third floor seven and one-half above may be put in when the growth of the Library shall require it.

The young people's room, which is fitted with tables and chairs of different heights, and with the books on open shelves, proves to be a very popular feature.

The following periodicals are to be found on the reading room tables :

In compliance with your regulations I respectfully submit to you and to the citizens of Middleboro my fourth annual report of the schools of the town.

## *Enrollment and Attendance.*

The total number of pupils enrolled for the year was 1,376, an increase of 30 over the previous year; the average membership, 1,188, an increase of 35; the average daily attendance 1,095, an increase of 46; the percentage of daily attendance to average membership, 92.2, an increase of 1.4. It is gratifying to note that the percentage of daily attendance last year was the highest for the last three years. The number of cases of tardiness and dismissal was larger than the previous year, although a few had a good record. The following schools deserve especial mention in this particular: Nemasket, 6 cases of tardiness; Wappanucket, 6; Main street, grade 9, 13; School street, grade 2, 15; Fall Brook, 17; Main street, grade 7, 20. The schools were closed the smallest number of times the past year for many years. The faithful attention to their duties on the part of our janitors, notwithstanding the excessively cold weather last winter, resulted in not closing any of the center buildings on account of cold rooms, while the "no school" signal was sounded but once for the High and upper grammar grades and but twice for the primary grades. It is pleasing to record that according

to the last published report of the State Board of Education our town stands 49 out of 353 towns and cities of the state in regard to the average attendance of children upon the public schools, and number three in the county. Great care is exercised by the teachers in the matter of attendance and with few exceptions the percentage of attendance in all the schools is higher than for the previous year. A study of the enrollment table for November for the past 10 years will show that the central schools, with the exception of one year, have gradually increased their membership each year from 662 in 1895 to 891 in 1904, a gain of 229, while the suburban schools, with a more variable yearly attendance, have increased from 337 in 1895 to 400 in 1904, a gain of 63, making a total gain for that period of 292.

The census returns show an increase of 73 children between the ages of 5 and 15 over the returns of the previous year, and an increase of 59 children between the compulsory age limits of 7 and 14. The school and census returns show a gradual increase in the school population.

#### *School Accommodations.*

At the close of the school year in June it was evident that an increase in the teaching force of the High School would be necessary in order to maintain the standard of the school and the problem how to secure the additional accommodations confronted the board. As the fourth grade in September would be smaller than for several years it was suggested that it be divided into two separate schools to occupy the rear rooms in the Union street building, that the fifth grade occupy the fourth grade room, and that the sixth grade in the Main street building be transferred to the room to be vacated by the fifth grade, leaving the sixth grade room for an additional recitation room for the High School. This plan was adopted and has worked well. In the fall term enough pupils were transferred from the fifth and sixth grades to the West Side schools so that these grades in Union street school have had an average attendance of not more than 50 pupils.

While it may be possible, owing to the size of the grades next fall, to continue the present arrangements another

year, it is time, however, to consider what must be done to relieve the congestion which will come if industrial conditions remain the same. To erect a suitable building adapted to the wants of the High School with its rapidly increasing membership would probably cost \$60,000. The town by its action last March in not accepting the offer of the Peirce trustees to erect a \$50,000 building for the use of the High School must look to some other solution of the school accommodation problem. If it is not possible to secure a new building for the High School then the present building should be given up to its sole use. An eight or ten-room building for elementary grades should be erected, and thus the school accommodations would be adequate for a number of years if no phenomenal increase in school population should come to pass. The number of pupils at the South Middleboro school last fall was 45. It was necessary to add four extra seats and desks to accommodate them. The room is now seated to its fullest capacity. If the number should increase it would be necessary either to transfer some to the Rock or Highland schools or to enlarge the present building.

### *School Exhibition.*

An exhibition embracing the work in all studies in all the schools was successfully carried out in Town Hall, Friday and Saturday afternoons and evenings, June 17 and 18. As this was the first exhibition of this nature ever held in the town the following account from the Middleboro Gazette is inserted :

#### A PRAISEWORTHY EXHIBITION.

If anybody in Middleboro has felt that our modern public school training is too largely theoretical, he was easily undeceived by attending the exhibition which was successfully carried out, Friday and Saturday. Besides the musical and rhetorical features, there had been arranged a display of school work on what was practically a continuous table around the interior of Town hall. Suitable placards showed where each school's work was to be seen, and during the two days about 2,500 visitors availed themselves of the opportunity to see what the chil-

dren are doing under the stimulus of twentieth century educational methods.

Perhaps two-thirds of the articles displayed on wall or table were illustrative of artistic effort, and some surprisingly good work had been done by our youthful students with brush, pen and pencil, and even scissors in the hands of the youngest pupils. In the line of penmanship were maps, ornamental lettering and musical manuscripts. There were numerous sketches in water color, pen and pencil; representations of flowers and animals; original wall paper designs; neat manuscript books showing studies in history, geography, geometry and trigonometry; and several fine specimens of needlework. The High school display included mechanical and architectural drawings of no slight merit, and a number of ingenious models of Julius Caesar's military bridge, built from the description given in his famous Commentaries on the Gallic War.

Pleasing entertainments were given by the younger pupils of the central and suburban schools on Friday afternoon and evening and on Saturday afternoon. The programs comprised instrumental solos, vocal solos, trios, quartettes and choruses, recitations, dialogues, drills and marches. The Boys' Band assisted at Friday evening's entertainment.

The exhibition as a whole attested painstaking and careful devotion on the part of our faithful and not overpaid teachers, particularly Miss Sewall, who has given drawing instruction in the High and other schools during the past year. Though the exhibition was not decided upon until a few months ago, it has proved at once so ambitious and so thorough as to furnish an event of a character unique in the educational history of the town, and Supt. Bates and the teachers are certainly to be congratulated upon the success attained.

### *Manual Training.*

Through the earnest co-operation of the Cabot Club arrangements were made in June whereby a manual training course was introduced into the schools at the beginning of the fall term. The work as now outlined consists of sloyd work for the boys of the seventh, eighth and ninth grades in the Main Street and West Side schools and a course in sewing for the girls of the same grades. A mixed class composed of boys and girls of the same grades from the suburban schools is given weekly lessons on Friday afternoons in the High School building in the same work. The

value of manual training as an important factor in public school work needs no argument at this time. It is being extensively introduced and the day is not far distant when as much emphasis will be placed on hand training as is now given to mind training. The work in our schools has aroused a great interest and we look for gratifying results as it progresses. We shall be under additional expense the present year in this work as it will be necessary in order to give bench work to the boys of the eighth and ninth grades to have a room equipped with suitable benches and tools for a working class of at least twenty-five pupils.

At present the only possible thing to do as regards a room is to finish one on the third floor of the High School building similar to the laboratory on the same floor. To suitably equip such a room will cost at least \$500.00.

Our thanks are due to the Cabot Club for its great interest in this movement. The expense of the manual training teacher is assumed by the club, and in order to create an interest in the work among the people of the town, the club, at its own expense, secured Prof. Larsson of Boston to give a lecture in Town Hall on the value of manual training as an educator, in order that its great value might be presented by one of its greatest exponents in the country.

### *Stamp Saving System.*

Under the direction of the Cabot Club with the approval of the School Board the stamp saving system was introduced in our schools last May. The local club is a branch station of the central station in Boston, and receives its stamps from the Boston station. Each week on Friday afternoons, at the close of the school session, different members of the club visit the several school buildings at the centre, and give in exchange for the money brought by the pupils stamps, representing the value of the money received. Pupils wishing to deposit are given stamp cards, on which they place the stamps received. When the pupil has filled his card or has stamps representing the value of three dollars, he can exchange his card and receive the money value or he can open an account with the local Savings Bank.

During the past term nearly 400 pupils took the cards and 30 opened an account with the Savings Bank.

The pupils have manifested a great interest in the system, and much money, which would have done the possessor but little good, has found its way into the local bank. The teaching of thrift and the habit of systematic saving of money are two important factors in an education. The success of the system has obliged the Cabot Club to increase its working capital from \$50 to \$100.

In the Suburban schools the work is carried on by the several teachers. The Cabot Club in thus carrying on this important work shows what an influence for good any such organization can be to a community. I trust the work of the stamp saving system may continue for a long time to come.

### *Evening School.*

Last winter an evening class was organized which held weekly sessions in the High School building. Penmanship and Arithmetic were taught in alternation on Saturday evenings. The largest number in attendance was 49. The class in Penmanship was composed mostly of teachers. The class was carried on with practically no expense, the two teachers in charge giving their services.

This winter an evening school started Jan. 3rd, to continue eight weeks, with sessions on Tuesdays and Thursdays. The studies taken are Penmanship, Arithmetic, Grammar and Spelling. The session is from 7 to 9, and the course elective, each student taking whatever subject or subjects he wishes. The arithmetic and grammar work is carried on in two classes, an elementary and an advanced. The school numbers 51 pupils, composed of clerks, shoemakers, students and laborers in various occupations. A great interest is manifested, the attendance being exceptionally good. I would recommend that it be continued next winter, and that a sum of \$50 be appropriated for carrying on the work. I believe the attendance next winter would be even larger and the result more gratifying than the present term. An opportunity is here given for conducting classes in other subjects; such as English Literature, Civil Government, American

History, etc. The question often raised that the educational buildings should be more used by the people at large meets a partial solution in opening this building at night for such work.

### *Music and Drawing.*

The work in music has been productive of better results owing partly to the better equipment of the schools for carrying on this study. During the past year material to the amount of \$175.00 has been purchased and the work has been more systematized. The work in drawing has been extended so that now the supervisor visits each central elementary school each week instead of once in two weeks as formerly. In the High School the work is elective and is now offered to all pupils, lessons being given on each Tuesday and Thursday mornings. The work for the suburban schools is more systematically arranged the present year, the supervisor meeting the teachers once a month to outline the work of the month and to give suggestions as to how it should be carried on. The supervisor has visited a few of the suburban schools in order to acquaint herself with the conditions for getting the best results. The manual training work is under the direction of the drawing supervisor.

### *High School.*

At the opening of the fall term the High School had an enrollment of 200 pupils. The steady growth of the school is a good indication of its appreciated work. Since the present principal began his work fifteen years ago the school has increased from 87 to 200, and it is probable that next fall the membership will exceed 200.

One reason for this growth is found in the fact that the percentage of pupils graduating from the grammar grades and entering the High has been rapidly increasing. Last June of 52 pupils graduating from the Main Street school 49 or 94 per cent. entered the High School in the fall. 85 per cent. of the ninth grade graduates last June entered the High School. In 1901, 74 per cent. of the graduates entered the High School. The class of 1904 had the honor of enrolling the largest number of its graduates as members of the High School.

The large number who are enjoying the privilege of the school should appeal to the citizens of the town for hearty endorsement and liberal support. The school has enjoyed a prosperous year. The spirit of the school is to be commended. Its excellent standing is recognized by college authorities who accept its graduates without examination on the principal's certificate.

The changes in the curriculum recommended in the report of last year have been carried out. Through the interest and efforts of the science teacher the laboratory facilities have been extended. An additional teacher has been engaged.

The usefulness of the school would be greater if a strong business course could be introduced. Under present conditions such a change is not advisable. The increase in membership strongly emphasizes the need of more room and more teachers.

### *Gifts.*

During the year the schools have received a number of gifts which it gives us great pleasure to acknowledge. In June Miss Jennie G. Ryder presented to the High School a framed picture of "The Horses of the Sun God," one of her own drawings, which had formed one of the art exhibits at the World's Fair at Chicago. Through the generosity of interested parties a fine telescope has been added to the High School equipment which is proving a valuable aid for stimulating a greater interest in the study of astronomy. Two wall clocks have been given to the suburban schools, and now all these schools are provided with suitable timepieces—ten having been added during the last three years.

The E. W. Peirce Woman's Relief Corps presented with appropriate exercises a school flag to the Purchase school at the closing exercises of the fall term.

In many of the schools, through the active interest of the teachers, pupils have contributed money towards securing pictures for schoolroom adornment.

The Plymouth street school raised sufficient funds by means of a successful school fair to purchase a kindergarten number table and pictures. The Rock school by the same means has added to the appearance of its room and also

furnished the pupils with material for carrying on the color scheme in the drawing work. The South Middleboro school by means of an entertainment has made the final payment on the school organ. The efforts of the teachers to make as attractive and homelike as possible the school rooms are worthy of the highest commendation.

### *Repairs.*

The report of the Superintendent last year recommended that the Thompsonville and Forest street buildings be painted, that the recitation room in the Union street building be painted and the walls kalsomined, that a teachers' dressing room be added in the School street building by taking a section in the second grade room, that all the blackboards should be placed in good working order by a thorough renovation, that the Green school be furnished with adjustable seats and desks, that school wall clocks be furnished those schools now lacking them. All of these recommendations have been carried out. In addition the Purchase school building has been painted, a substantial fence built along the front of South Middleboro school yard, the High school building equipped in the doorways with electric lights, the new recitation room in the High school building furnished with adjustable seats and desks, the furnaces in the School street, Union street and High school buildings repaired. The present year the following repairs will be necessary: Painting and kalsomining the interior of Fall Brook building, repairing blackboards at Soule, reseating one suburban building with adjustable furniture, renovating the interior of High school and West Side buildings and finishing a room for manual training work on the third floor of the High school building.

### *Comments.*

A few of the important changes and items of interest are briefly given:

Algebra has been dropped from the course of study in the ninth grades and more time given to arithmetic.

The arithmetic course for the upper elementary grades has been revised and made more practical.

Bookkeeping has been made a full term's study instead of consisting of a few elementary lessons.

The text book in geography has been dropped in the fourth grade and a new course treating more fully with the geography of the town, county and state substituted. Maps of Plymouth county have been placed in every room containing a fourth grade.

The movement work in writing has been receiving much attention.

A new list of flag days has served to intensify historical study.

The books in the teachers' library have been catalogued, and printed catalogues with library cards placed in the hands of each teacher. The library now numbers 261 books and 31 pamphlets.

Attention has been given to school yard ornamentation. Under the direction of Tree Warden Bailey trees were set out with appropriate exercises in the grounds of every school yard last April. The trees were purchased by contributions from the pupils. It is the plan to add one or more each year to each yard until the grounds have been given a more attractive appearance.

The number visiting the schools is gratifying. Last year 2,547 names were registered in the Central schools and 1,210 in the Suburban schools.

The special exercises continued to be of great interest. Union Memorial exercises of the elementary schools in the immediate centre were pleasingly carried out in Town Hall, on School Memorial day.

The banner system to stimulate attendance in the Suburban schools is being tried. The school having the highest percentage of attendance for the month is awarded a silk banner, which is to remain with that school for a month or until won by some other school. The following awards have been made: Sept. Wappanucket, Oct. Thompsonville, Nov. and Dec. Rock, Jan. Plymouth street.

Teachers' meetings continued to be an important factor in our system. 45 are scheduled the present year; 8 principals' meetings, 32 grade meetings and 4 lectures in Homestead Hall, which this year take the place of general

meetings. The social meeting in May has come to be a fixed event enjoyed by all.

The supervisors hold several meetings to give definiteness to their work and stimulate interest in the same.

The Public Library is proving to be a great help in school work, and the wants of the schools are generously provided for by the library officials.

Frequent changes in the teaching corps still continue. To keep the force at a high standard of excellency is a serious problem. It is pleasing to note that the policy of the board in increasing salaries has resulted in many cases in the retention of many of our teachers who received offers from other places.

### *Conclusion.*

The standard of education in Middleboro is higher this year than last. The past year has seen an advancement along certain lines of school activities. Good, steady, progressive work is being done, and the future promises much for the educational interests of the town.

To the members of the School Board for their cordial co-operation and hearty support in all administrative measures, to the earnest, painstaking, conscientious efforts of the teachers, who through regular attendance at teachers' meetings and many by professional reading and study have labored to prepare themselves for the better performance of their school duties, to the parents for their interest in school work as shown by school visitation, to the citizens of the town for their liberal support of the schools, to the local press which has given so liberally of its space for the publication of weekly school notes whereby the people have kept in touch with school interests, to all who have in any way contributed towards making the past year one of the most pleasant and I think the most profitable of my administration I wish to express my sincere appreciation.

## REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL.

MR. C. H. BATES, *Superintendent of Schools*:

Dear Sir,—I take pleasure in submitting my report for the year 1904, the fifteenth year of my service as principal of the High School. It may be interesting to note the increase in the size of the school during this time. In the fall term of 1890 there were 87 pupils and three teachers; in the fall term of 1904 there were 200 pupils and six regular teachers, and special teachers in music and drawing. The prospects are that the number of pupils will be materially increased next September.

The enrollment last fall was divided into classes as follows: Postgraduates 3—girls 2, boys 1; seniors 29—girls 18, boys 11; juniors 42—girls 23, boys 19; sophomore 45—girls 23, boys 22; freshmen 81—girls 43, boys 38; total 200—girls 109, boys 91. There were 22 tuition pupils, 19 from Lakeville, 2 from Plympton and 1 from Carver. The pupils drawing transportation money numbered 48. The number of out-of-town pupils together with those in town living at a distance of over two miles was 70. The number of pupils in town living less than two miles from the school was 130.

A much needed want has been supplied by the fitting up of a room on the first floor for High School purposes, and by furnishing an additional teacher. Miss Annie G. Leahy was elected for the position. Miss Josephine A. Pickering resigned her position last summer to take a year of postgraduate work at Boston University. Miss Mabel F. Barnum was elected to fill the vacancy. The Trustees of the Peirce estate have kindly paid the salary of Miss Barnum, as they did that of Miss Pickering.

We still lack both teachers and school accommodations. With our present courses we should have another teacher. We should have a business course of four years, which would require still another teacher, making our regular force at least 8 in number.

While our record of attendance has been very creditable, (about 97 per cent.) I believe that an improvement should be made. Pupils of High School age should feel that regular attendance and strict attention to school work are imperative duties on their part, and that sickness or some other very important reason alone should interfere. There should also be fewer cases of tardiness. Parents should be very careful in writing excuses for dismissal, except for important reasons. I feel in duty bound to say that instances have been brought to my attention in which parents who could not say "no" to their children have written excuses, hoping at the same time that the excuse would not be granted by the teacher. This, of course, puts the teacher in a difficult position, as it is hard for him to discriminate between the necessary and the unnecessary excuse. This is a shirking of responsibility on the part of the parent.

The following changes have been made in the school courses during the year: An opportunity has been given to take three years' work in French instead of two, and two years' work in German instead of one. The course in English has been strengthened so that a pupil may have three recitations a week in the subject during the whole four years' course. If a pupil is fitting for a higher institution of learning, he is privileged to take those branches which will fit him directly for that institution, without following strictly any one of the prescribed courses of the school, providing that the work accomplished is equivalent to the work of the course.

The annual graduating exercises were held in the Town Hall, Friday evening, June 24. The class numbered 23.

I feel that the year's work has been successful, characterized by unity of effort on the part of school officials and teachers to make our High School serve the best interest of the people of Middleboro.

Respectfully submitted,

WALTER SAMPSON,

*Principal of High School.*

## REPORT OF THE SUPERVISOR OF MUSIC.

MR. CHARLES H. BATES, *Superintendent of Schools*:

Dear Sir:—I have the honor of submitting my fourth annual report of music in the public schools of this town.

Teachers and pupils are gradually getting into the right way of thinking and doing things, and with the same spirit that we find today, must show marked improvement each year until we get into the work as outlined in the Normal Course for all grades. The work, even now, speaks well for the last two years, and each term finds us nearer our first goal.

We lack material to do with in many schools, but the small additions each year will soon overcome this difficulty.

In the High School the spirit is excellent. Principal Sampson says it was never better in his fifteen years' connection with the schools. The progress under these conditions must be, and is, in the right direction. This year for the first time, we are able to take one section and sing by syllable. On account of lack of room we were obliged to take the school in two sections, which weakens, as a whole, the effect of our chorus work.

The Suburban schools are doing finely, a few singing two and three-part songs very creditably. I think this is possible in all outside schools.

With all the hard and trying conditions, the year just past has been a very successful one.

Respectfully yours,

AUSTIN M. HOWARD,

*Supervisor of Music.*

## REPORT OF THE SUPERVISOR OF DRAWING.

MR. CHARLES H. BATES, *Superintendent of Schools*:

Dear Sir,—The following is submitted as the second annual report of drawing: Ten hours each week are devoted to supervising drawing in the central schools of Middleboro. In the High School two forty minute lessons are given each week to those pupils who care to take drawing. In the other central schools one weekly lesson is given by the supervisor, and at least one other by the regular grade teacher.

The plan of work for the year is as follows:—Plant drawing, color study, space division, mechanical drawing, design, application of design, pose drawing and plant drawing. In the fall we began the study of the spectrum; in all the grades above the third we used the technical terms “primary” and “secondary,” and in the grades, above the fifth we made the spectrum from the three primary colors, and worked out the problem of complementary colors in crayon or water color paint.

During October the children in the second grade illustrated the story of Hiawatha in free hand paper cutting which is the first story taken by that grade in the fall. These illustrations were mounted on a calendar which was hung in the school room when completed. Then came the drawing of fall fruits in preparation for Thanksgiving decorations. The first five grades colored suggestive Thanksgiving illustrations which had previously been prepared in outline—and consisted of a turkey, a hay field with pumpkins in the fore ground, and a Puritan. The sixth, seventh and eighth grades made book covers for a Thanksgiving story, and the eighth and ninth grades made some very attractive menus for a Thanksgiving dinner.

In December the first and second grades illustrated the Christmas story in free hand paper cutting, making attractive panels for calendars. In the intermediate grades the children constructed paper candy boxes, and in some classes decorated them with drawings of holly sprays.

In each grade a Christmas token of some kind was made, and the principle of illuminated texts was worked out by

pupils above the third grade. In the three grammar grades problems in balance and rhythm have been taken, followed by "spot" designs which were worked up for wall paper patterns.

In all cases technical terms have been given, and used intelligently by the pupils. In January the first, second and third grades have been at work on paper cutting, and arrangement of forms cut, and have started on pose drawing. The fourth, fifth and sixth have been studying proportion and appearance of objects. The seventh, eighth and ninth have been studying objects as the pupils see them, with some theory as to why objects appear as they do.

One lesson in each grade this month has been on one of the world's greatest artists. A short account of the artist's life was given, and one picture studied, other pictures by the same artist were shown, in order to familiarize the children with the style of his painting. From now on the work will be in representation, group drawings and nature work.

The High School : The work in the High School began with the drawing of fall flowers. In October a division was made of those who desired to take mechanical drawing. This class began by geometrical problems, and later applied some of these problems in practical working drawings. The free hand class worked at the Ross color scale, each pupil using an individual water color box, and working out a complete scale. Later this class worked on designs for book covers, and wall paper designs in black and white. The lessons next before Thanksgiving were devoted to Thanksgiving menus—and those just before Christmas to illuminating Christmas cards. At present the class is at work on problems in fore-shortening and convergence, in preparation for group drawings.

Suburban Schools : The work for the Suburban schools has been exactly the same as that in the Central schools.

In closing I desire to thank the superintendent and teachers for their hearty coöperation with me in this work.

Respectfully submitted,

ELIZABETH E. MARVIN.

## REPORT OF THE SUPERVISOR OF MANUAL TRAINING.

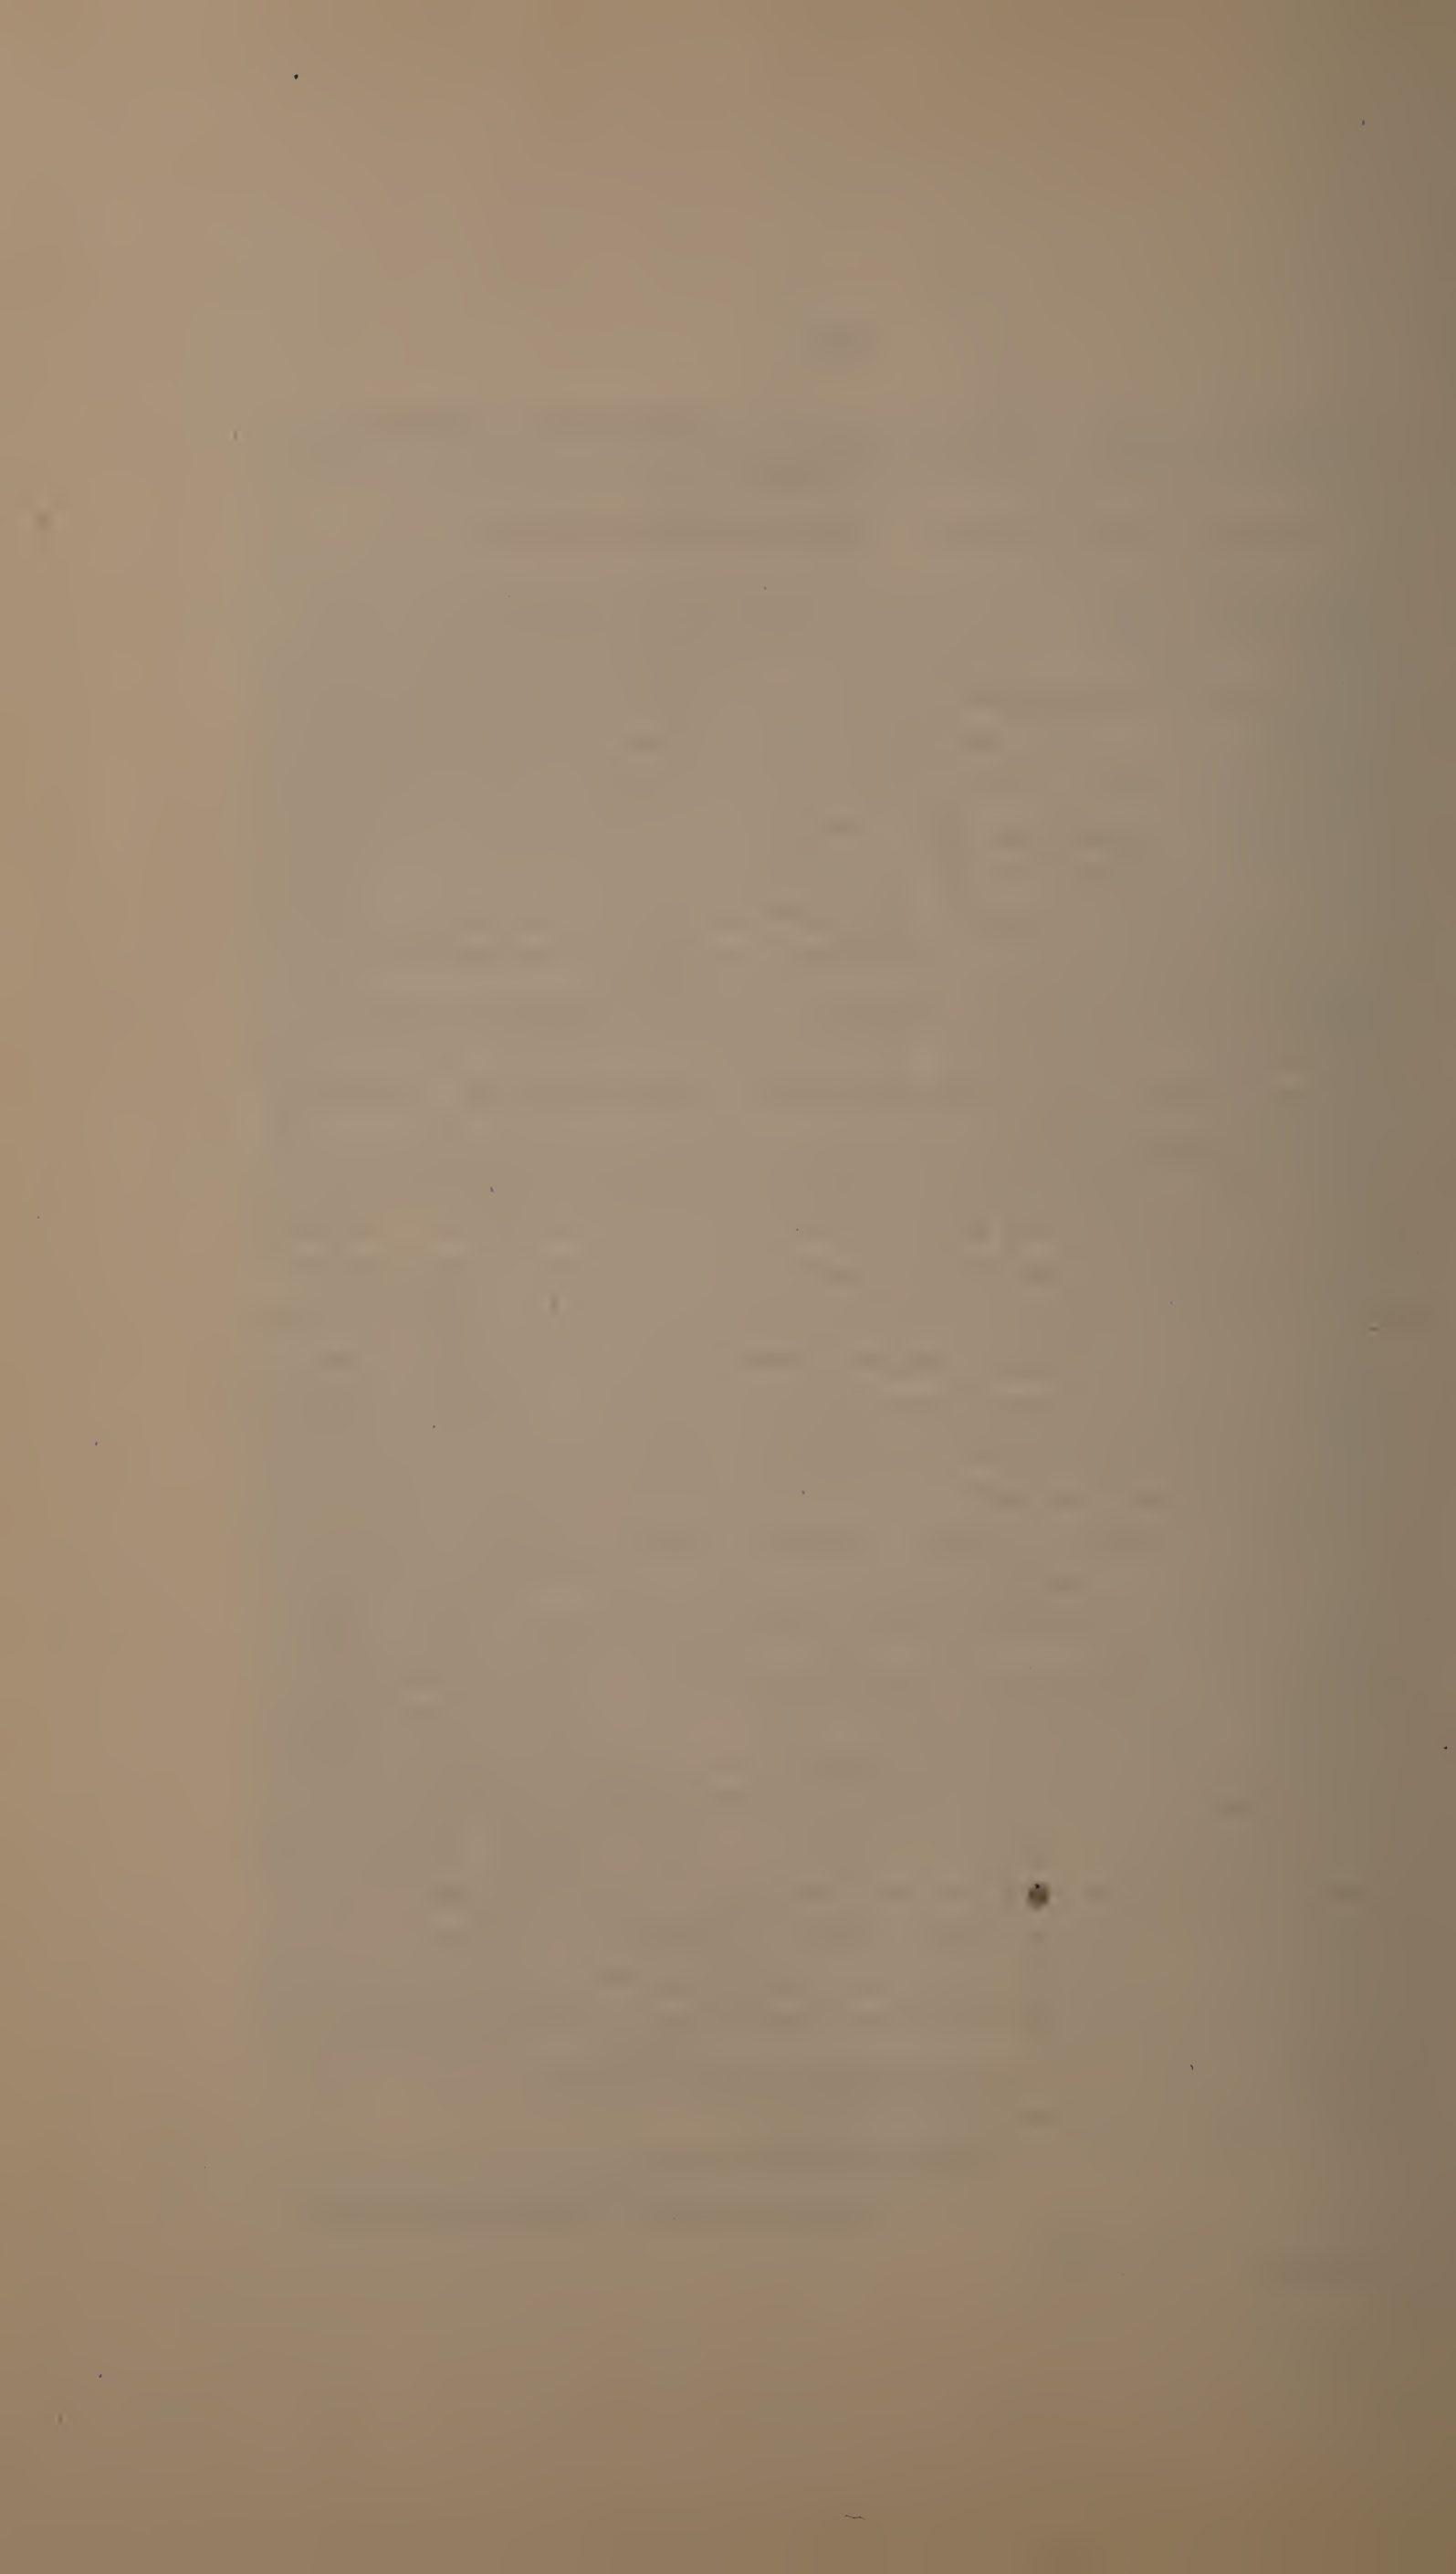

MR. CHARLES H. BATES, *Superintendent of Schools*:

Dear Sir,—The following is submitted as my first annual report in manual training: Five hours each week have been devoted to manual training in the three upper grades in Middleboro. The girls have had sewing and the boys have taken knife work. The same principles have been followed in each case—putting the exercises into some practical use. For instance, the first stitch taught the girls was basting; this was applied to bags; then came the back-stitch, which was used in sewing the sides of the bag; overcasting and hemming followed. In each case the stitches were required to be small and even, or the result was shown to be displeasing otherwise. The girls have just completed pinballs, which introduced them to a new stitch—top sewing—and are now at work in the seventh grade on doll's pillow cases, and in the eighth and ninth grades on doll's aprons. These small articles have been chosen that the children might learn the principles of construction and at the same time, would not lose their interest before the article was completed, which is often the case if too large a thing is undertaken. In knife work the boys have put each new exercise into some practical object. The first thing made was a pencil sharpener. This required straight edge whittling and was also required to be finished true and square without the aid of sandpaper; after this they made sandpaper blocks, key tags and silk winders. In making flower pins and penholders they departed from the work in two dimensions, and were required to model the objects on given lines. This gave them a new power and a knowledge of judging surfaces through the sense of touch. Other things which the class have made are rules, watch stands, key racks and match boxes. It is hoped that this work will lead to the larger field covered by bench work, where the boys may have the opportunity to learn how to make larger things of practical value, and to acquire a knowledge of the use of tools which everyone should have.

Respectfully submitted,

ELIZABETH E. MARVIN.
